SUBJECT: FY 2004 and FY 2003 Audit Information for June 30th Year-Ends

The Audit Guide dated April 1991 is the compliance program when auditing State and Section 5311 Operating Assistance funds. This letter is updated yearly and supplements the Audit Guide with annual percentages and other necessary information.

I. Information Necessary to Calculate State Operating Assistance

A. Reimbursement Amount:

There is a fixed amount of state operating funds available and the distribution percentage changes based on the statewide eligible expenses. The reimbursements are initially calculated based on budgeted expenses and then recalculated based on reconciled expenses. Total eligible operating expenses will be recalculated a second time based on audited financial information.

Based on the FY 2004 budgeted distributions and the FY 2003 reconciled distribution, nonurbanized areas and urbanized areas under 100,000 population received the following percentage of their eligible operating expenses:

FY 2004:	42.236619648 percent based on budget
FY 2003:	42.93218922 percent based on reconciled

Urbanized areas over 100,000 population received the following percentage of their eligible operating expenses:

FY 2004:	35.208599129 percent based on budget
FY 2003:	35.59371265 percent based on reconciled

B. Statutory Cap:

Nonurbanized areas and urbanized areas under 100,000 population can receive up to 60 percent of eligible operating expenses. Urbanized areas over 100,000 population can receive up to 50 percent of eligible operating expenses.

C. Mandatory Floor:

An agency must receive, at a minimum, the amount received for eligible operating expenses in FY 1997, contingent upon the local share requirements set forth in Act 51, as amended.

II. Information Relating to Federal Funding and Reimbursement

IV. Special Points

- A. PTD reviews and approves all cost allocation plan methodologies. To verify that the transit agency has an approved cost allocation plan, visit our website at: <http://www.michigan.gov/mdotptd>. In the "Resources" box, click on "Audit/Accounting Information." Then click on "cost allocation listing." This listing is updated periodically. It is possible that a transit agency's cost allocation plan was approved since the last listing was posted. To determine if a plan was approved since the last update or to get a copy of the approved methodology, contact your project manager.
- B. Clearly identify all grants in the financial statements and supplemental information. All grants should have the contact number as well as a descriptive title. If a grant amount is included in total eligible expenses and then must be backed out as ineligible, the grant should be identified on items such as the revenue schedules, the Schedule of Expenses by Contract and General Operations, and the Ineligible Expense Schedule. Please note that any audit that fails to identify all grants on all of the applicable schedules will not be accepted.

- C. Please use the Local Public Transit Revenue and Expense Manual dated October 1, 2003 through September 30, 2004. This manual can be found at our website at: <http://www.michigan.gov/mdotptd>. To access this information, find the “Resources” box and click on “Audit/Accounting Information.”
- D. The audit guide can be purchased from the Michigan Department of Treasury. The order form is located at www.michigan.gov/treasury. To access this information, look on the left-hand side of the computer screen and click on “Local Government.” Find the “Forms/Instructions” box and click on “click here for: Local Government Forms and Instructions.” In the “Account Manual Form” box, click on “2687, Publications Invoice.” The audit guide is item number 14 “Transportation Authorities and Agencies” on the order form.
